## ► ETDFL 2023, Update Summary

- ◆ The ETDFL 2023 coordinates a complete REVISION on all frequencies since the 2020 Edition
- ◆ Duplicate medical terms for a RDPV3 Default group have the RDPV3 default Group # number added to the right of that generic medical term. Removal of invalid frequency Groups from 2006 edition
- ◆ (2023) Update of Corona Virus frequencies according to genetic diversity, species specificity, variants, infection prevalence and location.
- ◆ (2023) The [Brackets] Next to a medical term may indicate that term was reviewed and further information added, or an update
- ◆ (2023) The [Brackets] Next to a medical term may indicate another exact medical term under a different name elsewhere in the book. There may be up to 4 medical terms elsewhere in the book that represent the same disease. Each equivalent Medical disorder will all have the same Group (as they should) wherever they are located in ETDFL 2023
- ◆ (2023) This Bracket [...] next to the term will allow you to see both the [Latin/Greek Medical name], and the English name of the one disease. So whether you are searching for the Medical name or the English name, it will produce a search result with the same Group of frequencies.
- ◆ (2023) Numbered Frequencies. Each frequency has an allocated number on the left hand column representing the “ETDFL PROGRAM #” (number) of each Group.
- ◆ Download EXCEL and PDF versions of the book at etdfl.com. Use the SEARCH command in EXCEL or PDF to quickly find the medical disorder and its Program number # on the left side, and its corresponding 10 frequencies to the right.
